Di Tocker *Glass Artist BFA*

Di Tocker works fulltime as a Glass Artist from her studio in Ohaupo, Waikato, NZ.

Glass has been Di's passion since 1989. Di completed a Bachelor of Fine Arts (major Glass) at Royal Melbourne Institute of Technology in 2002.

Di chooses to work in the medium of cast glass because the finished product gives her senses so much joy, yet the process is so challenging and often the results are unpredictable.

Each *dicast**glass* art object created by Di Tocker is a 'one-off' made from Blackwood Casting Crystal (35% lead content).
